SUMMARY

Experienced in **Software Quality Assurance, System Analysis, and Front End Development**, with a Bachelor's degree in Computer Science and a GPA of **3.59/4.00**. Experienced as a **Front End Developer at PT Inovasi Sukses Sentosa (Indotrading.com)**, contributing to website development and improvement by revamping **7 pages within 4-5 days**, resolving **100+ bugs**, developing **4 APIs**, testing **5-10 APIs**, and building an SEO monitoring system covering **250 keywords**. As an **IT Developer at Bina Nusantara University**, contributed to the development of a SplitBill application for **Android, iOS, and Web**, covering requirements analysis, **17 Use Cases, 6 User Flows, and 10 UI/UX designs**, as well as frontend development and manual testing. Also experienced in **System Analysis** through the development of **22 technical tasks, 11 use cases, and 11 UI prototypes** using the Scrum framework, with hands-on experience in testing, data validation, and troubleshooting to ensure features work according to requirements. Skilled in **HTML, CSS, JavaScript, React Native, Next.js, SQL, Postman, Figma, Visual Paradigm, Git, and Jira**. Combining system analysis, software testing, and application development skills to contribute to building structured, reliable, and user and business oriented systems.

EDUCATIONAL BACKGROUND

BINA NUSANTARA UNIVERSITY

September 2022 - July 2026

Bachelor's Degree in Computer Science (GPA: 3.59/4.00)

- **Undergraduate Thesis:** Breast Cancer Drug Sensitivity Prediction Using miRNA-Derived Graph Representations and Graph Neural Networks | [Link](#).
- **Field Study Interest:** Object Oriented Analysis and Design, Database Technology, Agile Software Development, Software Engineering, Artificial Intelligence
- **Languages:** English (Intermediate) & France (Beginner).
- **Software Skills:** Microsoft Office (Word, Excel, Power Point), Google Workspaces, Jira, Notion, Figma, Visual Paradigm, SQL, Visual Studio, Visual Studio Code, Postman, Git, GitHub, Gitlab, Navicat, Canva

CORE COMPETENCIES

- | | |
|--|--|
| • Test Case Design & Execution | • API Testing & Data Validation |
| • Functional & Integration Testing | • SQL Database Query & Analysis |
| • Software Quality Assurance & Testing | • Data Validation & Quality Control |
| • System Requirements & Process Analysis | • Data Processing & System Verification |
| • System Modeling & Requirements Analysis | • System Performance & Quality Monitoring |

CERTIFICATION AND TRAINING

- **Intro to Data Analytics Mini Course**, RevoU, 2026
Modules: Understanding Business Problem, Preparing and Exploring Data, Analyzing Data to Answer Questions, Advanced SQL, Python Programming Fundamentals of Visualization, Data Visualization with Tableau, Data Visualization Insight Communication
- **Fundamental Front-End Web Development II**, Coding Studio, 2026
Modules: Getting Started, CSS, JavaScript, jQuery, Bootstrap, Github, Final Project
- **Fundamental Front-End Web I**, Coding Studio, 2025
Modules: Introduction to HTML, HTML Template, Heading and Paragraph, Text Formatting, List, Anchor, Image, Table, Layouting Using Table, Form, Iframe, Div & Span, Semantic and Non-Semantic HTML, Quiz
- **Web Developer Series 11.0 - Frontend**, Dibimbing.id, 2025
Modules: Introduction to Web Development & Frontend Developer Careers, HTML & CSS (Styling & Layout), Introduction to Responsive Design, Hands on Practice in Building Simple Web Pages

- **DSF 37 - UI/UX Design**, Dibimbing.id, 2025
Modules: UX Design Fundamental, Design Thinking Process, Wireframing & Prototyping, UI Design Fundamental, Hands on with Figma, Portfolio Project
- **Intellectual Property: Inventors, Entrepreneurs, Creators**, National Academy of Inventors (NAI), 2025
Modules: Introduction to Intellectual Property and Its Role in Innovation & Business, Patents, Copyright, Trademarks, Trade Secrets, Intellectual Property Strategy & Commercialization
- **Dacode: Data Structure Course**, Dacode, 2023
Modules: Array & Linked List, Stack & Queue, Tree & Binary Search Tree, Hashing & Hash Table, Graph & Disjoint Set

WORK EXPERIENCES

PT INOVASI SUKSES SENTOSA | INDOTRADING.COM

September 2025 - August 2026

Front End Developer

- **Revamped 7 website pages** based on Figma designs within **4-5 days** using HTML, CSS, JavaScript, Bootstrap, Visual Studio, Jira, Koala, Navicat, GitHub Desktop, and GitLab.
- **Developed pricing and VAT features** across **20 product pages** to ensure pricing and tax information was displayed clearly and accurately.
- **Built an automated SEO monitoring system** using cron jobs and AI training to monitor **250 keywords/pages** and improve category information for SEO purposes.
- **Resolved 100+ bugs** at an average of **3-5 bugs per day**, covering UI issues, performance, page speed, data inconsistencies, APIs, error handling, and cross browser/device compatibility.
- **Built 4 APIs and tested 5-10 APIs** using Postman to handle lead, product, city, product name, and company data through MongoDB and SQL.
- **Rewrote** the application from Vue.js to Next.js over **1 month**, followed by **1 week of testing** and **1 week of bug fixing**, while conducting QC on CRM website features including WhatsApp, CRM, invoice, and authentication.

Tools: Visual Studio, Bootstrap, HTML, CSS, JavaScript, Jira, Koala, Navicat, GitHub Desktop, GitLab, Postman, MongoDB, SQL, Vue.js, Next.js, Figma, Cronjob

Key Achievement:

1. **Completed the revamp of 7 website pages** within **4-5 days** based on Figma designs and resolved **100+ bugs** at an average of **3-5 bugs per day** to maintain platform functionality, UI consistency, and stability.
2. **Developed 4 APIs and tested 5-10 APIs** using Postman, while building an SEO monitoring system covering **250 keywords/pages** to support system development and SEO improvements.

BINA NUSANTARA UNIVERSITY

March 2025 - August 2025

IT Developer

- **Developed 17 Use Cases, 6 User Flows**, and **10 UI/UX Designs** for the SplitBill application using Visual Paradigm and Figma based on feature and user flow requirements.
- **Implemented 3 frontend pages** using React Native and TypeScript, including ensuring the main application navigation could run smoothly from end to end.
- **Conducted 5-7 Test Cases** manually to check the interface, bill creation flow, and Split Bill calculation results before moving to the next development stage.
- **Worked** on the project for **3-4 months** with a **3 member team**, supported by Site Supervisor guidance every **2-3 weeks** to review progress and improvements.
- **Refined** the design through **3 revision cycles** over approximately **1 week** using Figma, while maintaining a consistent interface through reusable components and standardized spacing.
- **Completed** the SplitBill frontend for **Android, iOS, and Web** using a single codebase, allowing the core development to be completed ahead of schedule for **notification integration and optimization**.

Tools: Visual Paradigm, Figma, GitHub, Expo Go, ESLint, Metro, React Native Chart Kit, React Native Reanimated, React Native Gesture Handler

Framework: React Native 0.76.7, Expo SDK 52, React 18.3.1, Expo Router 4.0.19, React Native Web 0.19

Key Achievement:

1. **Completed the SplitBill frontend** for **Android, iOS, and Web** using a single codebase, with the frontend foundation completed ahead of the development target.
2. **Maintained UI/UX consistency across 12 pages** using Figma, **Reusable Components**, a limited color palette, and a multiple of 4 spacing scale, with **3 revision cycles** completed before implementation.

BINA NUSANTARA UNIVERSITY

September 2024 - November 2024

Analysis System | Course Project

- **Developed and analyzed** a questionnaire consisting of **13 questions** from **10 respondents** to understand user needs and determine the features that needed to be prioritized in the system.
- **Processed 8 user stories** into **22 technical tasks** by mapping user requirements into structured work items for the system development process.
- **Designed 11 use cases** along with use case descriptions covering normal flow, subflow, and alternate flow as a reference for the team in understanding each feature's workflow.
- **Created** sequence diagrams and **1 class diagram** using **Visual Paradigm** to illustrate system interactions, data structures, and functions.
- **Designed 11 UI prototype screens** using **Figma** and participated in the Scrum process through Sprint Planning, Daily Scrum, Sprint Review, and Sprint Retrospective with the team.
- **Designed the system architecture** using **Factory and Strategy Patterns** to make the system more flexible when adding new task categories without modifying existing code.

Tools: Visual Paradigm, Figma

Key Achievement:

1. **Prioritized system features** based on the analysis of a questionnaire with **13 questions** from **10 respondents**, translating user needs into **8 user stories** and **22 technical tasks**.
2. **Designed the system architecture** using **Factory and Strategy Patterns** and developed **11 use cases** to support a more flexible and structured system.

ORGANIZATIONAL EXPERIENCES

- **Digital Content Creation Volunteer**, Video Based Learning - Health, May 2025
Highlight Activity: Created 1 educational video with a duration of **5 minutes** about the health risks of cigarettes, drugs, and alcohol among adolescents by developing learning materials, preparing the storyboard, producing the video via Zoom, and editing it using InShot with a **3 member team** for elementary to high school students.
- **Environmental Volunteer**, Save the Ocean Volunteer - TFI Binus University, May 2024
Highlight Activity: Participated in a beach clean up activity by collecting **100+ kg of waste**, planting mangroves to help prevent coastal erosion, and educating visitors about the impact of plastic waste on marine ecosystems while coordinating work areas and waste transportation to designated disposal points.
- **Volunteer**, Project Character Building Course, October 2023 - November 2023
Highlight Activity: Conducted an educational session on preventing religious extremism and fanaticism for **100 students of SMP Negeri 6 Tangerang** with **10 university students**, coordinating permits, supporting the session, and managing photo and video documentation. ssss
- **Volunteer**, Character Development Social Activity, October 2022 - November 2022
Highlight Activity: Coordinated seminar pitching and permission processes at SMP Negeri 6 Tangerang with **8 university students**, followed by an educational session covering anti corruption, anti bullying, anti racism, religious tolerance, environmental awareness, and anti drug awareness through interactive discussions connected to Pancasila values, Indonesian culture, and SDG-related issues.
